DETAILED ACTION

Specification

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 16,18,20-23,25-27 and 29-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Rouch et al.
4. Rouch et al. discloses all of the subject matter as set forth in the claims and is substantially identical to the invention as broadly recited. Some of the claimed elements clearly disclosed by the reference are: a control unit (102), vibration sensors and active elements (92,94,96); actuator (64) and tool holder (14). In regard to claims 12-15, the method as claimed is inherently taught by Rouch et al.

Allowable Subject Matter

Claims 19,24,28 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 3/24/04 have been fully considered but they are not persuasive.

5. In regard to applicant's argument that Rouch et al does not anticipated the claims. The examiner submits that Rouch et al. discloses all of the subject matter as set forth in the claims and inherently teaches the method as set forth. Further rouch et al clearly discloses a control unit (102), vibration sensors and active elements (92,94,96); actuator (64) and tool holder (14).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
